Summary

Currently studying Software Engineering at the University of Göteborg. I am eager to secure challenging roles in the Software industry, particularly in Penetration Testing and Cybersecurity. I love the entire IT subject and am always looking for new things to learn or ways to improve. I would love to chat about the industry.

Skills

| Development - oop, software architecture, scrum, agile, ci/cd, process engineering, networking, operating systems, virtualization | Coding - java, python, sh, bash, zsh, fish, gdscript, javascript, typescript, c, c++, go, html, scss, css | Frameworks - digitalocean, heroku, git, mongodb, sql, postgres, graphql, linux, osx, windows, docker, node, next.js, react, redux, vue, vuex, chakra-ui, styled components, tailwind, bootstrap

Education

University of Gothenburg - Software Engineering & Management, BSc *Aug, 2020 - May, 2023*
University of California, Santa Cruz - Anthropology (incomplete), BA *Aug, 2016 - Aug, 2018*
Santa Monica Community College - Social and Behavioral Science, A.A. Liberal Arts *Aug, 2012 - May, 2015*

Work Experience
